

CHENIERE

in the community

An annual report of Cheniere Energy's
community investment and outreach efforts.

CHENIERE

From our President and CEO

For Cheniere and our stakeholders, 2016 was a year of historic achievement. In February, our company successfully exported the first cargo of domestically produced liquefied natural gas (LNG) from the continental United States in over 50 years from our Sabine Pass facility in Southwest Louisiana. This was a major milestone not only for Cheniere, but for the United States and the global energy industry. By the end of 2016, over 50 cargoes of LNG were exported from Southwest Louisiana to countries across the globe.

At the Sabine Pass facility, we continued successful operations of Train 1, achieved substantial completion on Train 2 and began commissioning of Train 3 by the end of the year. At our Corpus Christi Liquefaction facility in South Texas, significant construction progress was made on the first two trains of the project as we continue toward our goal of exporting LNG from that site in 2019.

At Cheniere, we are proud of our achievements and our role as a leader in the LNG industry. We are also pleased to dedicate our time and

resources to give back to the communities where we operate and live. Cheniere continues to invest in people, programs and organizations in communities across Louisiana and Texas. This annual community investment report shares several of those initiatives and activities that the Cheniere team was proud to support in 2016. It also highlights many of the partnerships and relationships we have continued to build upon throughout the development of our projects.

As we enter into a new chapter at Cheniere as the first operational LNG export company in the continental United States, we look forward to continuing upon the company's commitment to the communities where we live and work and being recognized as a leader in responsible corporate citizenship.

Sincerely,

A handwritten signature in black ink that reads "Jack Fusco". The signature is fluid and cursive, with a long, sweeping underline that extends to the left.

Jack Fusco
President and CEO

CRAFT DEVELOPMENT PROGRAM

Cheniere's Craft Development Program is a workforce development program tailored to produce the highly skilled welders needed to support ongoing construction in the Gulf Coast and Coastal Bend regions. The program is designed for graduating high school students with welding experience and transitioning military veterans. The program is executed through strategic partnerships with three community colleges, over 20 high schools, and one U.S. Army base. The program has successfully graduated 57 candidates to date. By investing in the education of our students and veterans on the Gulf Coast, Cheniere has ensured that the workforce of tomorrow can take advantage of the job opportunities of the future.

“Welding careers require a high level of training and skill. It is encouraging to see a company like Cheniere partnering with our local high schools and colleges to help students begin this education and training early.”

State Representative
Dade Phelan, Southeast Texas

DEL MAR PROCESS TECHNOLOGY PLANT

Del Mar College in Corpus Christi, Texas, unveiled their new Process Technology and Instrumentation Pilot Plant on March 10, which was funded in part by a \$250,000 grant from Cheniere.

The pilot plant simulates the work of refining, petrochemical, and oil and gas industry process operators and technicians. The plant's features focus on common tasks and formal procedures, which include calibration of equipment, operation of pumps, control valves, wireless controllers and manual and digital control systems. Classes started in the fall of 2016 and integrate multiple career tracks

for high school dual credit students, college credit programs and continuing education certification.

Del Mar College President Dr. Mark Escamilla said the facility will play a vital role in improving students' eligibility for work. "Cheniere played a large role in bringing this project to reality. When the rubber hits the road is when our students get together with instructors in the classroom" he said, "This is one more lab to facilitate that." Students entering the local workforce will now be able to gain experience with equipment and technology similar to that found in industrial facilities in the Gulf Coast.

▶ *Del Mar College students demonstrate the new Process Technology and Instrumentation Pilot Plant*

EDUCATION INVESTMENTS IN LOCAL HIGH SCHOOLS

In May, Cheniere awarded 5 scholarships to graduates of Johnson Bayou High School in Cameron Parish, Louisiana, pursuing higher education. The class of 2016 was the first senior class to graduate from the recently rebuilt high school after it had been completely destroyed by Hurricane Ike in 2008. Classes had been taught in temporary buildings until the new high school building was completed prior to the 2015-2016 school year.

In addition to this annual scholarship program, Cheniere also provided grants to each of the four high schools in Cameron Parish so that teachers and administrators could purchase items for their schools and students that may not have otherwise been possible.

YOUTH LEAD COUNCIL PROGRAM

ABOUT THE YOUTH LEAD COUNCIL

The Youth Leadership, Enrichment and Development Council program (LEAD) was designed by Cheniere to engage the next generation of leaders in community service by empowering students to make project decisions, coordinate work and allocate budgets. There is a LEAD Council in the areas where Cheniere is developing and constructing liquefaction facilities – Cameron Parish, Louisiana, and San Patricio County, Texas. Council members are selected by an application and approval process with both the council advisor within the school and the principal, who work together to choose the students. Cheniere provides a budget

▶ *Cheniere presents scholarships to students of Johnson Bayou High School*

of \$20,000 and administrative support to each Council and enables the students to identify and execute local service projects in their communities.

“The students in the Youth LEAD Council program recognized far-reaching ways to help enhance the lives of residents in the Coastal Bend and Cameron Parish,” said Laura Ferrell, Cheniere’s Youth LEAD Council coordinator. “Our company is proud to support this program each year and applauds the students for their volunteerism and service to their local communities.”

COASTAL BEND

On April 28, Cheniere’s Youth LEAD Council in San Patricio County, Texas, gave back to the community by renovating the outdoor patio area of a local assisted living center to improve the quality of life for its residents. The students on the Council, along with faculty sponsors and Cheniere employees, worked together

to purchase and assemble new patio furniture, improve the landscaping and mend the garden area by adding a new walkway and plant life.

In addition to the renovation project, the students chose two additional projects to encourage a green and healthy lifestyle for local residents. They coordinated the installation of three hydration stations inside Gregory-Portland High School, as well as eight public sunscreen dispensers in various outdoor locations in Portland, Texas.

CAMERON PARISH

On September 26, the Youth LEAD Council in Cameron Parish organized a movie premiere event to promote a historical documentary film the Council chose to create as their local service project. The film highlighted the life and culture of Cameron Parish and is now stored at each high school

and library in the parish. The students developed the framework and content of the film, conducted interviews with lifelong residents who explained life in the parish and what it means to them and showcased significant landmarks in the parish such as the historic Sabine Pass Lighthouse.

At the premiere event, which was attended by many local officials, residents, and students, the LEAD Council also announced the completion of beautification projects at each of the four high schools in the school system, which was another project the Council executed in 2016.

▶ Youth LEAD Council members help renovate the outdoor patio area of TRISUN Assisted Living Pavilion in Portland, Texas

◀ *Cheniere employees speak with young women at Reach for the Stars Science Festival*

REACH FOR THE STARS SCIENCE FESTIVAL

On April 9, Cheniere sponsored and participated in the Reach for the Stars Science, Technology, Education and Math (STEM) Festival on the campus of Rice University in Houston, Texas.

Cheniere displayed an exhibit booth that featured female employees with careers in environmental, health and safety, who shared stories about their interest in STEM fields from a young age and answered questions related to how they achieved their career goals.

Catherine Mayhew, lead environmental coordinator at Cheniere, displayed her outdoor environmental toolkit and explained how she assesses environmental areas and works to protect endangered species.

She said, "As the mother of three young girls, it has always been important to me to inspire them to know that STEM careers are not just for boys. I am proud that Cheniere shares this philosophy in the workplace and our outreach to the community through the Reach for the Stars Festival."

ENERGY DAY 2016

On October 15, Cheniere employees participated in the annual Energy Day Festival in Downtown Houston. Since its inception in 2011, Energy Day has helped spark students' interest in STEM education and the development of new energy technology. It is the nation's largest energy festival and largest free event of its kind in Houston. Over 22,000 people visited more than 50 interactive exhibits and scientific demonstrations showcasing the ongoing advancements and innovations in the energy sector.

Cheniere's booth featured live liquefied natural gas (LNG) demonstrations by Cheniere engineers to educate the audience. Demonstrations showed how natural gas transforms into a liquid and its effects on common objects such as a rose, ping pong ball, water bottles and balloons. It also provided an opportunity for employees to discuss LNG safety and how it is used around the world.

“ It was rewarding to demonstrate the importance and safety of natural gas and LNG to the kids at Energy Day. ”

Christy Flatt, Associate
Coordinator, Environmental

- ▶ *Cheniere employees talk with students about LNG at the Energy Day Festival*

▲ *Employees wearing wristbands honoring members of the armed forces*

BEACH TO BAY RELAY

On May 21, Armed Forces Day, Cheniere employees from Texas and Louisiana took part in the 41st Annual Beach to Bay Relay in Corpus Christi, Texas. Cheniere served as a sponsor of the relay, which donates proceeds from the event to over 45 local charities such as Special Olympics, the Naval Relief Society, Texas A&M Corpus Christi Athletics Scholarship and many youth

organizations throughout the Coastal Bend.

Cheniere employees participated in the Run for a Hero program, which allowed runners to honor and recognize a person who has served or is currently serving in the military by wearing wristbands with the names of members of the armed forces.

BEARING GIFTS TOY PROGRAM

In December 2016, over 45 Cheniere employees gave their time to help serve at the BEARing Gifts warehouse in Houston, Texas. The BEARing Gifts program is coordinated through the Be a Resource (BEAR) for CPS Kids, an organization that provides holiday gifts to children under the care of CPS in Harris County, Texas, who otherwise may have none. During the two days,

Cheniere's volunteers sorted, boxed and labeled gifts, as well as helped select gifts to fulfill wish lists submitted by children in the program. Additionally, over 400 toys were collected from Cheniere to go to children under the care of Child Protective Services (CPS).

"I enjoyed volunteering because I see how much help is needed to process

all of the gift requests for the children in the care of CPS," said Kyle Purvis, manager of environmental compliance at Cheniere. "This is my second year to volunteer, and we always work to do as much as possible so those children have gifts during the holidays."

5TH ANNUAL CHENIERE CHARITABLE FISHING CLASSIC

On June 25, Cheniere's Community Investment Council hosted the 5th Annual Charitable Fishing Classic in Southwest Louisiana. The funds raised from this fishing tournament benefit the Louisiana Heroes Project and Wounded Warrior Association of East Texas and Western Louisiana to honor and thank the service men and women who have selflessly served our country.

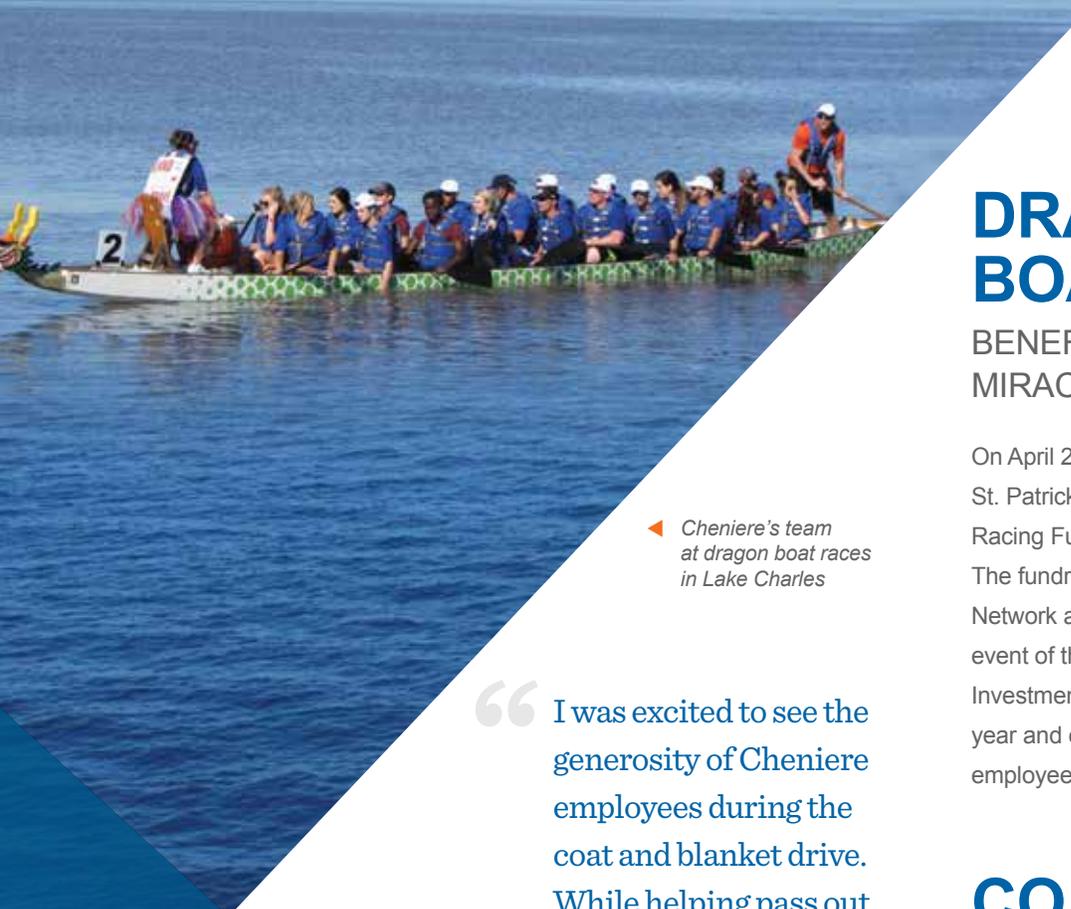

Over 100 participants, including many Cheniere employees and 25 wounded heroes, took part in the event and raised more than \$30,000 to provide for our veterans and current military members through the two benefitting organizations.

DRAGON BOAT RACES

BENEFITTING THE CHILDREN'S MIRACLE NETWORK

On April 23, Cheniere participated in the Christus St. Patrick Foundation's 4th Annual Dragon Boat Racing Fundraiser held in Lake Charles, Louisiana. The fundraising event benefits the Children's Miracle Network and has grown into the Network's largest event of the year. Cheniere's Sabine Pass Community Investment Council donated \$5,000 to the cause this year and entered two teams in the race made up of employees, friends and family.

◀ *Cheniere's team at dragon boat races in Lake Charles*

“ I was excited to see the generosity of Cheniere employees during the coat and blanket drive. While helping pass out the items, I could see that these items would really make a difference in the lives of many people who needed them. ”

Terri Bachand,
Cheniere Government
and Public Affairs
Senior Associate

COAT AND BLANKET DRIVE

During November, Cheniere hosted a coat and blanket drive to benefit Ecclesia Houston, which provides care to members of Houston's homeless population. Employees brought coats, blankets and other clothing items for Ecclesia's BIG DAY After Thanksgiving Feast on November 25.

Cheniere volunteers were on hand to help serve food and hand out donations. Monetary donations provided haircuts and other barber services.

◀ *Coats and blankets being distributed at Ecclesia Houston*

U.S. MARINE CORPS RESERVE TOYS FOR TOTS

In November, the employees at the Sabine Pass facility donated more than \$14,000 to Toys for Tots, a program run by the U.S. Marine Corps Reserves. The organization's mission is to collect new toys as Christmas gifts to less fortunate children in the community. The Marine Corps Reserves Toys for Tots group picked up several hundred toys and 114 bikes that were purchased with the monetary contributions.

The local community organizer of this annual toy drive for the past 15 years, retired 1st Sgt. John Lamar, said, "A heartfelt thank you to Cheniere's employees for their generous donations. They truly made a profound difference, and we are inspired by their kindness and commitment to bettering our community."

▼ *Cheniere employees with their donations of toys and bikes for Toys for Tots*

“ It was so rewarding to see the joy on the children’s faces when they received their bicycle. I was proud to be a part of the Cheniere team that made those dreams come true. ”

Cindy McGee
Public Affairs Associate

▲ *Cheniere receives 2016 Eagle Ford Excellence Award for Community and Social Investment*

COMMUNITY AND SOCIAL INVESTMENT AWARD

On November 30, Cheniere was presented the 2016 Eagle Ford Excellence Award for Community and Social Investment by the South Texas Energy and Economic Roundtable (STEER) at their annual awards event in San Antonio, Texas.

The Eagle Ford Excellence Awards honor leading companies and organizations working in or with the oil and gas industry for their efforts in protecting the environment, making safety a top priority and giving back to the communities in which they live and work. Cheniere was selected by a group of judges based on the company's community investment efforts in the Coastal Bend region, particularly in the areas of public safety, education and workforce development.

Omar Garcia, President and CEO of STEER, said, "It's important, particularly in the current energy environment, to persevere and stay true to your core principles. It's encouraging to see that companies like Cheniere have remained focused on the importance of community involvement."

- ▶ Check presentation to the two divisions of the Family and Youth Counseling Agency of Lake Charles

5TH ANNUAL CHENIERE CHARITABLE GOLF TOURNAMENT

On April 8, Cheniere held its 5th Annual Charitable Golf Tournament at the National Golf Course in Westlake, Louisiana. Over 200 golfers registered for the event that raised a total of \$24,000 to benefit two divisions of the Family and Youth Counseling Agency of Lake Charles – Court Appointed Special Advocates (CASA) and The Leadership Center for Youth.

CASA is an organization of volunteers who are appointed by the court to advocate for the best interests of a child who has entered the child welfare system due to abuse or

neglect. The Leadership Center for Youth provides guidance, leadership development, career exploration, and civic engagement opportunities to facilitate a young person's success and involvement in the community.

Julio Galan, President and CEO of Family and Youth Counseling Agency, said, "Thanks to Cheniere's recent golf tournament, hundreds of children in foster care and our community youth will receive the services they need and deserve. Thank you to the Cheniere employees who invest in our children and youth."

LOCAL BEACH CLEANUP

On September 17, employees from the Sabine Pass facility were part of over 130 volunteers who showed respect for the environment and participated in an annual local beach cleanup project. Cheniere helped sponsor the cleanup project which took place in Cameron Parish, Louisiana. The volunteers filled over 430 bags along the 5 ½ miles of beach, which was estimated to be over 13,700 pounds of litter and debris. Many of the items collected and removed can be deadly to birds, turtles and other marine life along the coastline.

▲ *Cheniere employees donate their time to clean up local beaches*

▼ *Employees competed in the D10 Decathlon to raise funds for MD Anderson Pediatric Cancer research*

AMBASSADOR GRANT PROGRAM

In 2016, Cheniere's Ambassador Grant Program provided over \$94,000 in donations to a broad range of philanthropic organizations across Texas and Louisiana.

The Program provides employees with an opportunity to help guide the company's community investment in the areas where Cheniere operates by directing a \$200 corporate contribution to any non-profit organization located in the community where they live and work. Many employees teamed up to pool their contributions together and make a larger single impact for a charitable organization.

Since 2013, Cheniere employees have contributed over \$250,000 to nearly 100 different charities in Texas and Louisiana through the Ambassador Grant Program.

COMMUNITY INVESTMENT COUNCILS

Cheniere's Community Investment Councils (CIC) are comprised of local employees who identify needs within the community and help direct a portion of the company's financial contributions and organize volunteer efforts to address those needs.

Cheniere's Community Investment Councils at Sabine Pass and Corpus Christi gave over \$200,000 to dozens of local non-profits, schools, food banks, veterans groups and other civic organizations. The Councils also supported many of these causes by organizing hundreds of volunteer hours by Cheniere employees to help make a difference in their local communities.

SENIOR CITIZENS TURKEY BINGO

In November, the Sabine Pass CIC delivered 80 turkeys as prizes to senior citizen bingo games at community centers across Cameron Parish.

ABRAHAM'S TENT

In September, the Sabine Pass CIC organized employee volunteers to help serve meals at Abraham's Tent in Lake Charles, Louisiana. For nearly 30 years,

Abraham's Tent has served meals to the less fortunate in Southwest Louisiana, providing about 300 meals a day, six days a week. Cheniere provided funding to Abraham's Tent in 2014 to assist in the purchase of their new building and has been pleased to continue strengthening this partnership through volunteerism.

TOY WRAPPING AND GIVEAWAY

On November 21, the Corpus Christi CIC donated funds and organized employees to help purchase and wrap 235 toys that were given to local children in need at the City of Gregory's 10th Annual Christmas Parade.

VOLUNTEERING AT LOCAL COASTAL BEND FOOD BANK

In November, the Corpus Christi CIC donated both funds and time to assist St. Mary's Star of the Sea - Works of Mercy Food Bank in Aransas Pass, Texas. The Council organized employees to volunteer at the food bank to help stock shelves and distribute everything from turkeys and side dishes to daily necessities to individuals and families in need.

St. Mary's Star of the Sea - Works of Mercy Food Bank supports single parents, flood victims and individuals and families in need of free nutritious meals, especially during the holiday season.

Full collection bins at the Houston office Mobile Food Pantry

PARTNERING WITH THE HOUSTON FOOD BANK

SUMMER MEALS FOR CHILDREN

On July 14, Cheniere's summer interns dedicated their morning to assembling hot meals for children at the Houston Food Bank's Keegan Kitchen facility. The 34 interns prepped trays, cut fruit, baked comfort foods and prepared sandwiches to feed over 4,700 children in the Houston area that day. The Food Bank provides nutritious meals for kids at locations around the city during the summer when school lunches are not available.

FOOD DRIVE AT HOUSTON OFFICE

On October 20, over 20 Cheniere employees volunteered to help distribute food to those in need. Cheniere partnered with the Houston Food Bank to sponsor the mobile pantry van at a local multi-service

- ▲ *Summer interns prepare hot meals for children at the Houston Food Bank*
- ◀ *Employees volunteer at the mobile pantry van sponsored by Cheniere*

center, where the volunteers handed out fresh fruits, vegetables, eggs, bread, pastas and grains, along with canned goods. They also assisted people with packing their food and carrying it to their car or the nearby bus stop.

In November, employees at the Cheniere headquarters in Houston, Texas, donated food to the Houston Food Bank in time for the holiday season. Cheniere employees provided one of the largest food donations ever received at the food bank. The total amount of food was enough to provide for nearly 30,000 meals for individuals and families across the Houston region!

MOBILE FOOD PANTRY

Lines formed around the block to receive food from the mobile pantry van and Cheniere's volunteers were able to spend time with some of those who received food to take home. "Talking with people there, I felt that we were making a difference and helping those that truly needed it," said Shea Smith, an employee in Cheniere's internal audit department.

CAMP ARANZAZU

In November, Cheniere presented a check for \$250,000 to the staff of Camp Aranzazu near Rockport, Texas. Camp Aranzazu enriches the lives of children and adults with chronic illnesses and special needs by providing unique camping, environmental education and retreat experiences. In 2016, almost 1,600 children and adults spent time at the camp's 104-acre facility, and nearly 65% of the campers come from the Coastal Bend region in South Texas.

Cheniere's contribution supported the expansion of the camp's facilities and their desire to serve more campers. "There clearly is a need for this type of facility," said Virginia Ballard, president of the 10-year-old camp, "and we were grateful for Cheniere's support."

▲ Cheniere employees and family members at the Inaugural Sabine Pass Lighthouse Run

▲ Check presentation to Port Arthur International Seafarers' Center

INAUGURAL SABINE PASS LIGHTHOUSE RUN

On October 15, over 35 employees and family members came out to participate in the inaugural Sabine Pass Lighthouse Run, which included 5K, 10K and 1-mile distance runs. Cheniere was a major sponsor of the run held at Holly Beach, Louisiana, that featured over 200 runners. Several members of the Cheniere family brought home medals.

This event raised over \$30,000 and brought attention to the historic Sabine Pass Lighthouse restoration in

Johnson Bayou, near Cheniere's Sabine Pass facility. The proceeds are being used to stabilize and restore the notable structure, which was operational from 1857 until 1952.

"We had a great turnout and a much larger community response than we had hoped for. Without Cheniere and the greater community, this type of event simply could not occur," said Andy Tingler, Cameron Preservation Alliance president.

DONATION TO PORT ARTHUR INTERNATIONAL SEAFARERS' CENTER

On June 20, Cheniere presented a grant for over \$44,000 to the Port Arthur International Seafarers' Center in Southeast Texas. This donation helped the center buy a new van to transport visiting merchant mariners when they visit and need transportation around the region.

▲ Cheniere employees and local officials at Windfest

▲ Employees volunteer at community garden in Beaumont, Texas

▼ Employees attend charity dinner at The Giving Field community garden

43RD ANNUAL WINDFEST

On April 15-17, Cheniere employees, friends and family participated in the annual Windfest festival in Portland, Texas. In addition to helping sponsor the festival, Cheniere's volunteers worked over 50 hours throughout the weekend and played a special role in organizing the popular cook-off contests.

Windfest also featured a parade, carnival rides, games, a car show, local bands and the South Texas Gunfighter Show. The event helped support 10 local non-profit organizations including Lions Club, Masons, Gregory-Portland Girls Volleyball League and Young Life.

THE GIVING FIELD COMMUNITY GARDEN

On September 9, Cheniere employees dedicated their time to volunteering at The Giving Field, a community garden in Beaumont, Texas. They cut the grass, pulled weeds, planted vegetables and cleaned garden beds to make them ready for new fruits and herbs.

The Giving Field is modeled after community gardens in Houston, Austin and New Orleans, and their goal is to promote sustainability and reduce the

amount of processed foods in homes and local food pantries. The garden donates organic fruits and vegetables to local hunger outreach programs in Southeast Texas and provides education about healthy eating, sustainability and spirituality through food production.

In addition to volunteering at the garden, Cheniere funded new garden plots for new trees and plants to be added to support future growth.

“ These historic floods devastated communities and families across Louisiana and I am thankful that Cheniere reached out to help the people of our state recover. Their contribution helped assist the impacted residents throughout the Acadiana region of Louisiana. ”

Jan Hamilton,
Chairperson, SOFA

LOUISIANA FLOOD RELIEF

In August, Cheniere responded to the devastating and unprecedented flooding in the Greater Baton Rouge and Acadiana areas of Louisiana by committing \$75,000 to help assist recovery efforts. Cheniere donated \$25,000 each to Service, Outreach, Furniture, Acadiana (SOFA), the Community Foundation of Acadiana and the Louisiana School Boards Association (LSBA).

SOFA is located in Lafayette, Louisiana, and provides free furniture to those who have suffered significant loss through a natural disaster or are establishing a new residence after homelessness. The contribution from Cheniere was used to purchase furniture to be donated to those most in need following the flooding.

The Community Foundation of Acadiana set up the Acadiana Disaster Response Fund following the catastrophic events.

Through the fund, they worked closely with federal, state and local agencies, as well as non-profit organizations and churches, to identify and address the needs of those most affected in an 8-parish region of South Louisiana.

The LSBA, in partnership with First Lady Donna Edwards, launched the Fund for Restoring Schools to help those schools most dramatically affected by the flooding. Cheniere's contribution helped the LSBA provide short-term assistance for classroom supplies, school uniforms, structural repairs, clean-up costs and technology equipment.

Cheniere values the significant impact that each of these organizations had in the initial recovery efforts in Louisiana and was pleased that the company's donations were used to directly benefit those individuals and families impacted by the historic flooding.

▲ Groundbreaking ceremony with local officials and residents of Ingleside on the Bay

INGLESIDE ON THE BAY PARK RENOVATIONS

In October, Cheniere provided a \$65,000 grant to the City of Ingleside on the Bay to help fund major upgrades to the city's primary park. Improvements will include installing new basketball, tennis and volleyball courts as well as a shade structure to cover much of the area. A groundbreaking ceremony was held with local officials and residents to celebrate the ongoing partnership between Cheniere and the city.

The community of Ingleside on the Bay is located in San Patricio County, Texas, near Cheniere's Corpus Christi Liquefaction Project.

▲ Tri-County EMS and Cheniere celebrate the arrival of a new ambulance

CHENIERE HELPS PROVIDE NEW AMBULANCE

On August 29, Tri-County EMS in San Patricio County, Texas, added a new ambulance to their fleet due in part to a \$50,000 grant from Cheniere. Tri-County EMS is a 501(c)3 non-profit organization that has provided 911 ambulance and emergency service in the Coastal Bend region for over 30 years and responds to approximately 2,500 calls per year.

- ◀ *Cheniere employees and Gift of Life representatives at mobile mammography van site in Southeast Texas*

BREAST CANCER AWARENESS

MAKING STRIDES AGAINST BREAST CANCER WALK

On October 15, Cheniere employees, friends and family participated in the American Cancer Society's Making Strides Against Breast Cancer Walk in Corpus Christi, Texas. The 45-member team walked in honor of breast cancer survivors.

The Cheniere team raised over \$8,000, the fourth highest total of the 409 registered teams! This money directly supports breast cancer research, life-saving education and critical patient services.

MOBILE MAMMOGRAPHY UNITS

Cheniere sponsored the University of Texas Medical Branch mobile mammography unit in Port Arthur, Texas, through the Gift of Life Breast Cancer Awareness Program in July.

- ▶ *The M.D. Anderson mobile mammography unit in Houston*

- ▶ *Cheniere employees at the BP MS 150 bike ride*

"We are honored that Cheniere shares the Gift of Life's mission of saving lives in Southeast Texas," said Regina Rogers, Gift of Life Founder and Chair. "Cheniere's sponsorship again this year will help bring peace of mind to dozens of medically underserved Southeast Texas women who lack access to care. We are truly grateful for the company's support."

Cheniere also sponsored the M.D. Anderson mobile mammography unit on-site at the company's headquarters on October 25-26 in downtown Houston. Convenient access to mammograms and screenings were provided to company employees and other building tenants.

BP MS 150 FUNDRAISING BIKE RIDE

In April, over 130 Cheniere employees participated as riders and volunteers in the BP MS 150, an annual two-day fundraising bike ride that begins in Houston, Texas, and concludes in Austin, Texas. The event is organized by the National Multiple Sclerosis Society, South Central Chapter, and brings together 13,000 cyclists and 3,500 volunteers in the largest event of its kind in North America.

Team Cheniere raised \$120,000 for the event, and those funds were used by the National Multiple Sclerosis Society to help push MS research forward and deliver services to those who face the challenges of the disease every day. Cheniere's involvement in the MS 150 continues to grow each year as more employees register to ride, volunteer or help raise funds for the event.

"It's great to be part of this ride, which has organically grown in this company from the bottom up. I love being a part of the momentum to give back to the community and promote research for MS," said Ben Polfus, Supervisor of Gas Operations and Planning and Cheniere's MS 150 Team Captain.

CONQUER THE COAST BIKE RACE

For the second year in a row, Cheniere employees participated in the Conquer the Coast bike ride, the Coastal Bend's premier bike race.

Over 2,000 riders registered for the race, including 130 Cheniere employees from multiple office locations. Additionally, 25 employees worked as volunteers to support the race operations. Riders chose one of three possible courses – the 10-mile, the 21-mile and the 65-mile ride. The 65-mile ride was sponsored by Cheniere. Proceeds generated by the event supported the United Corpus Christi Chamber of Commerce Foundation and local programs such as Leadership Corpus Christi, Bikes for Kids and the Texas A&M University-Corpus Christi Islander Athletic Fund.

After the race, Cheniere hosted a picnic for participants, volunteers and the company's community stakeholders in the Coastal Bend region.

FIREFIGHTER COMBAT CHALLENGE

▲ *Cheniere team at the Scott Safety Firefighter Combat Challenge*

On April 29-30, Cheniere was the title sponsor of the Scott Safety Firefighter Combat Challenge in Lake Charles, Louisiana, during the Contraband Days Festival. In addition to sponsoring the event, Cheniere employees participated in the demanding physical challenge as a team and took home first place in the competition.

The Scott Firefighter Combat Challenge attracts hundreds of municipal fire departments at events across the United States annually. The Challenge seeks to encourage firefighter fitness and demonstrate the rigors of the profession.

Cheniere understands and values the importance of firefighters and all first responders to the communities where we operate and was pleased to continue this partnership with the Firefighter Challenge.

FIREFIGHTER TRAINING ACADEMY

Cheniere provided a \$49,000 grant to regional firefighters in Texas' Coastal Bend region to attend a training academy in Ingleside, Texas. The Ingleside Fire

Department Firefighter II Academy graduated 20 new level II firefighters, which represents over 3,700 man hours of training. HAZMAT training was also

offered at the academy. Firefighters from Ben Bolt, Ingleside on the Bay, Flour Bluff and the Ingleside Fire Departments all provided students to attend the academy.
