

ACTING TODAY SECURING TOMORROW

2021 HIGHLIGHTS

\$5M invested into community development projects.

Nearly 10% of global LNG supplied by Cheniere.

99.6% of employees are local.¹

27% increase in employee racial/ethnic diversity since 2016.

Top-quartile safety performance of 0.10 Total Recordable Incident Rate (TRIR) and 0.01 Lost Time Incident Rate (LTIR).

34% reduction in Scope 1 GHG emissions intensity since 2016.

OUR APPROACH TO SUSTAINABILITY

Our vision is to provide clean, secure and affordable energy to the world. In living up to this vision, we are responding to the world's shared energy challenges: expanding the global supply of energy, improving air quality and supporting the transition to a lower-carbon future.

LNG: SUPPORTING THE ENERGY TRANSITION

- Natural gas continues to play a significant role in the global energy mix and supports economies in the lower-carbon journey.
- Our LNG gives countries a source of energy that increases security and options, especially alongside the adoption of renewable energy.
- When displacing coal, our LNG can help improve air quality and reduce localized air pollution and public health risks around power generation sites.

RECOGNIZED FOR OUR PROGRESS

In 2021, Cheniere received a rating of A (on a scale of AAA-CCC) in the MSCI ESG Ratings assessment.²

Cheniere Energy, Inc.'s ESG Risk Rating places it in the 13th percentile in the Refiners and Pipelines industry assessed by Sustainalytics.³

Designated a 2022 "JUST 100" leader by Just Capital, placing first in our industry and 35th overall of nearly 1,000 rated companies.

Received the World LNG Energy Transition Award for our Cargo Emissions Tags (CE Tags) initiative, presented at the World LNG Summit & Awards.

¹ Total number of site employees living in Texas or Louisiana / total number of employees at sites.

ENGAGING WITH STAKEHOLDERS

We engage regularly with local community members across the life cycle of our operations, from the earliest planning stages through permitting and construction, and on an ongoing basis once we begin operations. We focus on building relationships with our stakeholders to understand, and then actively address, potential concerns associated with our operations, such as localized light, noise and air pollution and increased commuter traffic. We maintain regular, two-way dialogue with residents to understand and address any potential concerns, and we have formal feedback mechanisms in place. We have developed location-specific stakeholder engagement plans at each of our LNG facilities. We have also helped to establish Community Advisory Panels (CAPs) to share project information and discuss concerns with local community leaders near our project locations.

INVESTING IN LOCAL COMMUNITIES

Our community work is rooted in relationship building. We align our community investments with local needs to deliver lasting benefits and strengthen connections with our neighbors. We have long focused our community development efforts on building local workforces and supplier bases, including sponsoring apprenticeship programs at SOWELA Technical Community College in Lake Charles, Louisiana and Del Mar College in Corpus Christi, Texas, and internships for high school students from underserved Houston communities in partnership with Genesys Works and Cristo Rey Jesuit High School.

In addition, in 2021, we began implementing a diversity, equity and inclusion (DEI)-focused corporate giving strategy to help align our community investments with our overall strategy to advance DEI where we live and work.

8,000+
hours volunteered in communities where we live and work.

\$400,000+
contributed to DEI-focused projects in 2021.

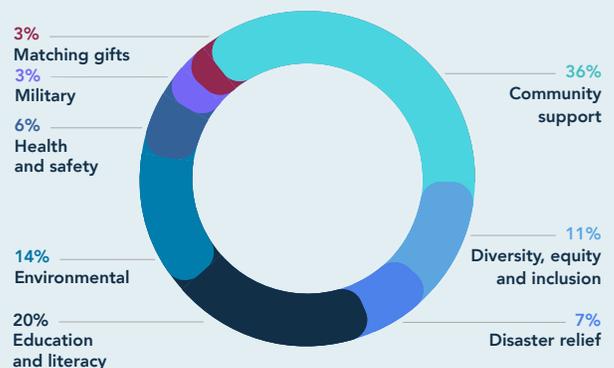

\$500,000
pledged to fund scholarships at local HBCUs in partnership with the Thurgood Marshall College Fund.

\$800,000+
to support education and literacy programs.

\$200,000+
to support environmental projects.

89%
of significant supplier spend is with local suppliers.¹

2021 COMMUNITY INVESTMENT BY PROJECT TYPE²

¹ Significant local suppliers represent in-state vendors with headquarters in TX, LA or OK from which Cheniere procures a significant value of goods and services through the supply chain management unit. One local supplier representing a large portion of our significant supplier spend was excluded to avoid positive skew in the calculation.

² Employee giving fund contributions and in-kind donations are not included in this breakdown.
